

What is the teen program?

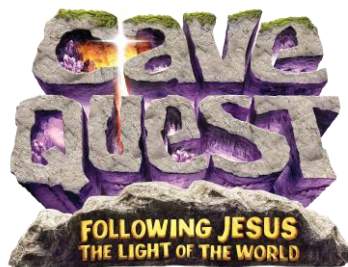

The teen program is a wonderful opportunity for teens to build relationships with each other and with God. Each day, the teens will be participate in the VBS opening, learn teen-oriented Bible lessons, and take part in a community service activity. The last day, the teens will venture off to a water-themed activity.

Parents! There is always a need for helpers and drivers! Please let us know if you are interested in helping!
